1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 1, at the end of the last line, has been inserted a period.

2. The allowed claims are 1-7.

3. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or fairly suggest the recitations of the specific features of the exteriorly positionable anatomical brace, of claim 1, including especially the following:

The primary reason for the allowance of independent claim 1, is the inclusion of the specific features of each of the securement members comprising a medial piece, a lateral piece, a tightening member, a first connector element, and a second connector element disposed at each adjacent frame site and each adjacent cuff site for receiving the first connector element, claimed in combination with the brace's upper and lower frame members, upper and lower cuffs, and pivoting joint member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3743

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Wilson et al, Silver et al, Gilmour, Smits, Detty and Nauert are cited to show knee braces.
